2018-2019

Jajpur

Skills

Programming Languages:- C, C++, Python, JAVA,

Database:- Oracle10g, MySQL

SoftSkills:- QuickLearner , Critical Thinking, Time Management, Team Collaboration

Technical Skills:- Technical Skills: NumPy, Matplotlib, Scikit-learn, Power BI, Tableau, Data Cleaning, Data Visualization, EDA, Statistical Analysis, Dashboard Development, GitHub, HTML, CSS, JavaScript, NodeJs

Projects

Gurgaon Real Estate Analysis

- Analyzed Gurgaon real estate datasets using Python, SQL, and Excel to identify property price trends and market patterns.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) to ensure data quality and uncover actionable insights.
- Developed interactive dashboards and visualizations using HTML, CSS and JavaScript to present key metrics, pricing trends, and location-based comparisons.
- Generated data-driven insights on property prices, amenities, and locality performance to support informed decision-making.

Hotel Management System

- Developed a responsive Hotel Management System using HTML, CSS, and JavaScript for hotel booking and customer engagement.
- Implemented room browsing, online booking, availability checking, gallery, offers, and contact functionalities.
- Designed interactive UI components including image sliders, booking forms, testimonials, FAQ sections, and dark/light mode support.
- Integrated responsive design, SEO optimization, Google Maps, and social media connectivity to enhance user experience and accessibility.
- Improved website performance through optimized layouts, lazy loading, and modern front-end development practices.

Certification

- **Google Data Analytics Professional Certificate** – Completed comprehensive training in data cleaning, data visualization, SQL, spreadsheets, data analysis
- **TATA GenAI Data Analytics Bootcamp** – Gained hands-on experience in data analytics, AI-driven insights, and real-world business problem-solving.
- **Deloitte Data Analytics Virtual Experience Program** – Developed skills in data analysis, dashboard creation, data visualization, and business reporting.
- **Ultimate Data Analysis Bootcamp (CodeWithHarry)** – Acquired practical expertise in Python, Pandas, NumPy, Matplotlib, Excel, SQL, Exploratory Data Analysis (EDA), and data visualization through project-based learning.

Achievements

- **DNS HackElite'26 Hackathon** : recognized among the top 20 teams for developing an innovative solution in a competitive national-level hackathon.
- **Convolve 4.0 (Pan-IIT AI/ML Hackathon)**: Qualified screening round and secured a Top 30 Team position.
- Represented District Cricket Team in inter-district cricket tournaments and was there in State Camp..

Hobbies

- Reading Books,
- Traveling
- Playing Badminton
